Material:

Referention number: 420-00001-48/XS

Colour: Green, Blue

Size: 48, 50, 52, 54, 56, 58, 60, 62

Full product description

A jacket designed for use in various types of workplaces where contact with acids and alkalis is possible. Excellent protection against wind and rain. It features a special cut that does not restrict movement and a fabric with high elasticity and increased resistance to chemicals. Double-sided welding technology increases durability of seams. Two front pockets covered with a patch and a hood increase the comfort of use.

Product features

Norms

- EN ISO 13688
- EN 13034

Material

PLAVITEX CHEMO - a polyester-based waterproof material coated with PVC. It is resistant to tearing and has waterproof stitching. Due to the unique chemical composition of the coating the material has acid-resistant properties and can withstand adverse weather conditions and bending at temperatures down to -50°C. The material meets the requirements of the EN 343 and EN 13034 standards, verified by tests conducted by a certified textile testing institute.
